Additional Tips and Reminders

- To help ensure successful participation in the hearing, please test your audio and video before joining the meeting and check the chat panel frequently until it is your turn to testify.
- Your internet speed will affect the quality of your audio and video in the meeting. The Legislature will not be responsible for users' connection issues and technical problems. We recommend joining the meeting from a hard-wired broadband internet connection whenever possible.
- To prevent audio feedback, the sound for any livestream or cable broadcasts of the hearing you have running in the background must be turned off or muted when it is your turn to testify (There will be a 20 to 30 second delay from the Zoom meeting to the livestream).
- You are participating in a public event that is being broadcast live. The Zoom audio/video of the hearing will be part of the public cable broadcast and/or livestream via the internet. Please minimize background noise and consider what is visible in the background of your webcam.
- Please do not use a background, whether actual or virtual, showing any material that may be copyrighted, including material to which you own the copyright. Any such backgrounds may be in violation of YouTube policies and will result in your video being turned off or not allowing you to testify.
